

VALUES

Matawa First Nations Work Together

We have the opportunities to grow and reach our maximum potential as a regional group. The diversity within our regional communities is valued and a source of local and regional pride. We are proactively involved in the economic, cultural and political development of the Matawa territory.

Matawa First Nations are Dynamic and Sustainable Communities

We integrate modern social and economic development practices with our traditional culture and heritage. We build capacity and economic wealth for present and future generations and are well positioned to succeed in the national economy.

Matawa First Nations Uphold Quality of Life

We invest and protect our quality of life - socially, economically, culturally and environmentally - and ensure that the Matawa First Nations are prosperous and healthy communities in which to live, work and raise a family.
