- Coordinate with joint venture partners, contractors, and project stakeholders
- Oversee and administer construction, earthworks, and site services contracts
- Support construction coordination for the Migizi Plaza development in collaboration with the Design and Engineering team
- Support construction coordination for the Geraldton Main Street Reconstruction Project in collaboration with the prime contractor
- Identify and support new business development opportunities
- Monitor operational performance and contract deliverables
- Strengthen coordination and integration between MDLP, Equinox Gold, and joint venture partners
- Assist in resolving operational challenges and maintaining strong partner relationships
- Provide regular operational updates and strategic input to the CEO
- Support the continued growth and diversification of MDLP business activities

Qualifications

- Completion of post-secondary education required (Business, Engineering, Construction Management, or a related field is considered an asset)
- Experience in mining, civil construction, engineering, or related industrial sectors is considered an asset
- Experience managing heavy equipment is considered an asset
